

Summaries based on 146387 interventional studies.

Source of funding is derived from lead and collaborator information. If the lead sponsor was from industry or the study had industry collaborators without National Institutes of Health (NIH) involvement, the study was categorized as industry funded; if the NIH was involved as a sponsor or collaborator and the lead sponsor was not from industry, the study was classed as NIH funded; all other studies were classed as funded by nonindustry, non-NIH sources.

Summaries based on 146387 interventional studies.

Extracted from aact-prod.cr4nrs1b1w7.us-east-1.rds.amazonaws.com (AACT) most recently updated on 13MAR2017, and based on content publicly released by NLM on 13MAR2017.

Summaries generated by: /sigma/u\_ctdotgov/AACT2/requests/calvert\_slides/gallery/graphs\_interventional\_trials.sas on 14MAR17 11:10.

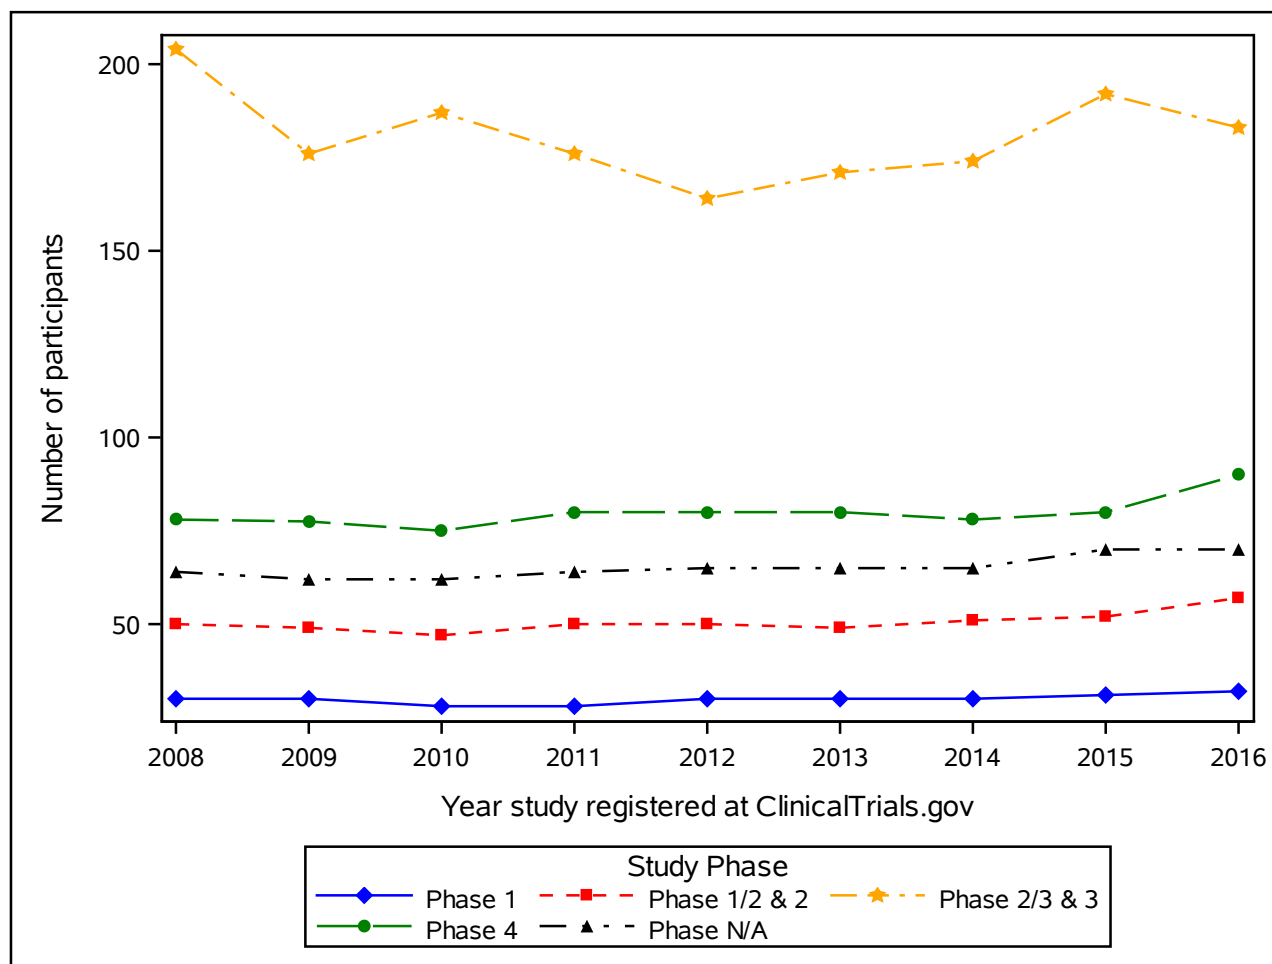

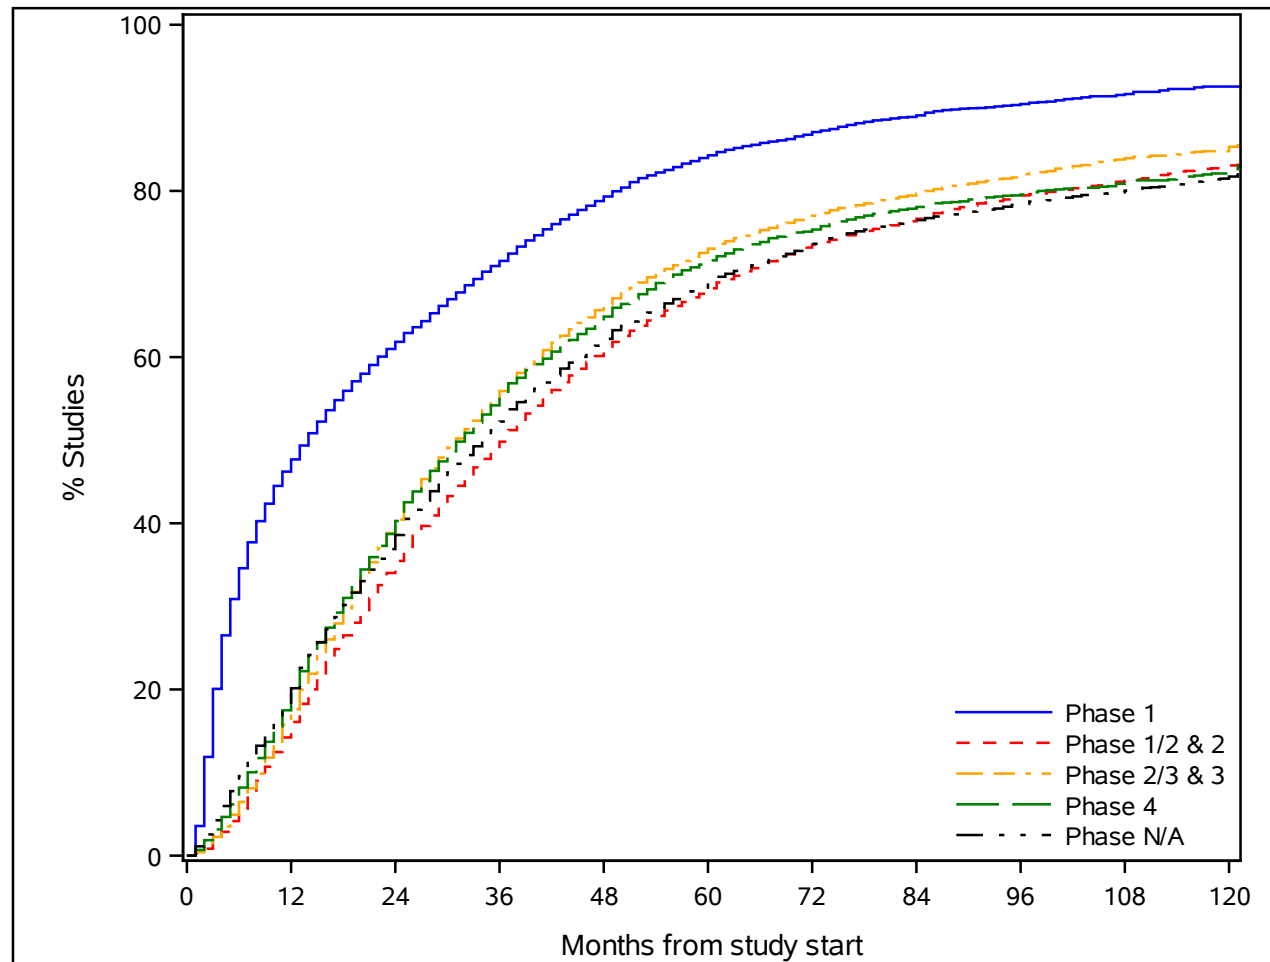

Figure excludes Early Phase 1 studies. For completed/terminated studies the actual enrollment is reported. For ongoing studies the planned enrollment is reported. Figure excludes studies missing enrollment information. For completed/terminated studies the actual enrollment is reported. For ongoing studies the planned enrollment is reported.

Extracted from [aact-prod.cr4nrs1b1lw7.us-east-1.rds.amazonaws.com](https://aact-prod.cr4nrs1b1lw7.us-east-1.rds.amazonaws.com) (AACT) most recently updated on 13MAR2017, and based on content publicly released by NLM on 13MAR2017.

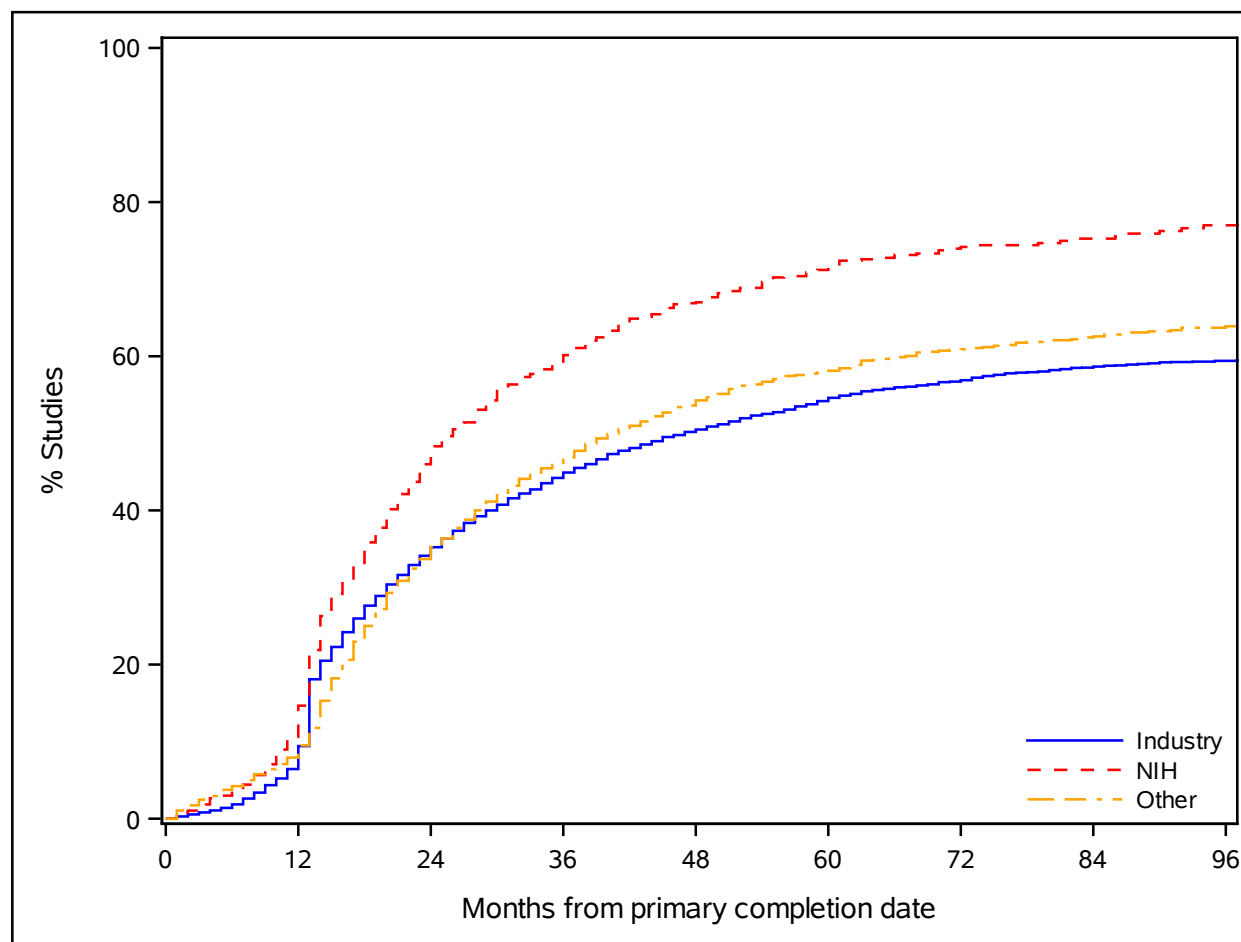

Summaries generated by: `/sigma/u_ctdotgov/AACT2/requests/calvert_slides/gallery/graphs_interventional_trials.sas` on 14MAR17 11:10.

Cumulative % of studies completing/terminated is estimated by Kaplan Meier method. Time is censored at the date when content was downloaded from ClinicalTrials.gov. Figure excludes Early Phase 1 studies, withdrawn studies, studies not yet recruiting, and studies with start date after date content was downloaded from ClinicalTrials.gov.

Extracted from aact-prod.cr4nrslb1lw7.us-east-1.rds.amazonaws.com (AACT) most recently updated on 13MAR2017, and based on content publicly released by NLM on 13MAR2017.

Summaries generated by: /sigma/u\_ctdotgov/AACT2/requests/calvert\_slides/gallery/graphs\_interventional\_trials.sas on 14MAR17 11:10.

Cumulative % of studies reporting results is estimated by Kaplan Meier method. Time is censored at the date when content was downloaded from ClinicalTrials.gov. Analysis is restricted to studies in Phase>1, with at least one US site and a drug/biological/device intervention, that were listed as Completed/Terminated when content was downloaded from ClinicalTrials.gov. Studies are excluded from analysis if they are missing both the primary completion and completion dates. Funding source is derived from lead and collaborator information.

Extracted from aact-prod.cr4nrslb1lw7.us-east-1.rds.amazonaws.com (AACT) most recently updated on 13MAR2017, and based on content publicly released by NLM on 13MAR2017.
